ABOUT ME

A React.js Developer/Frontend Developer.
I'm a code enthusiast that enjoys experimenting with new technologies and building web apps, currently learning MERN stack web development.
A sophomore at SVCET pursuing a B.Tech degree in Computer Science and Engineering (3rd year). When I am not working/coding, I usually spend my time sketching and reading.

PROJECTS

PORTFOLIO - Rakhi Keshri

- Here's my portfolio link: **://rakhikeshri**
- Used technologies: HTML | CSS | React.Js | JavaScript

TECHIE - All in one productivity Web-App:

- Used technologies: HTML | CSS | React.Js | localStorage | JavaScript
- Developed an all-in-one productivity website, fully responsive for all types of screens in ReactJs.
- The project includes all necessary productivity tools for any student or working person such as myNotes, Todos, Budgets, Color Palette, A set of Que's./Ans. in Accordion format along with pagination and searching functionality.

CHROME EXTENSION - Quick Look at CODEs:

- used technologies: HTML | CSS | JavaScript | Manifest File | NodeJs
- Developed a Chrome Extension that searches for code related to DSA problems.
- Deployed it on a web store named 'Quick Look at CODEs'
- The API used for the extension is created by myself using NodeJs, ExpressJs, and MongoDB.

CRYPTOCOSM - A Cryptocurrency Web Application:

- used technologies: HTML | CSS | React.Js | JavaScript | RTK Query | RapidAPI
- Developed 'Cryptocosm' a Cryptocurrency web application using Reactjs and RapidApi for providing the latest updates, value statistics, market cap, supply, and news regarding the cryptocurrency by market.
